

### Company Profile

**SMART TEAM HOLDINGS LIMITED** was founded in 2010, which is a company committed in designing, R & D, manufacturing and selling varieties of portable power banks both for domestic and abroad market. Series of new-design products with multifunction have been produced here, including power banks, Solar power banks, charger flashlights, rechargeable hand warmers, car chargers, etc.

Our company has set up professional production bases in Shenzhen , with the floorage of 3500 square meters. Now we have more than 50 experienced workers. Our annual production capacity has reached 1 million PCS, with annual sales of 6 million US dollars. As one of the World power bank suppliers, we have enjoyed a good reputation from overseas customers.

Our worldwide sales network already covers countries in Europe, North America, Western Europe and Japan and South Korea etc. All the products in Smart Team have passed CE, FCC and ROHS certification. In order to fall into step besides the global motive power and renewable energy market, we develop perfect modern enterprise management system, which has been certificated by ISO9001:2000. Basing on this Quality Management System, we made a strict production process control to guarantee the product quality. With a highly qualify R&D team inheriting the theory that "people first, technology is the highest", we focus on the consumers' good experience from the products and then design portable power products for them that bring great convenience.

In addition, our professional production base can ensure providing high quality portable mobile power products and other value-added services for worldwide customers. Under the guidance of our brand philosophy's "quality first, customers first, market-oriented and customer-core", we continue to blaze new trails in mobile power bank production field and create much more value for customers.

To become century enterprise and get sustainable growth is our central goal, quality, integrity, innovation and responsibility are our power source. Our constant aim is to strike roots in China & HK and face the world, thus make great efforts to become one of the top leading manufacturers of portable power banks! We are on the way and your support is our treasury!

Assembly Line

#### Dream

Being the leading compang in the new energy field.

#### Value

Innovation, returns to shareholder, benefit workers, responsible for society.

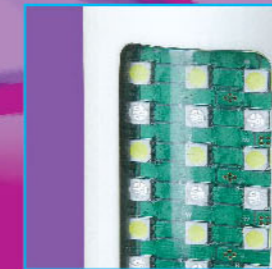

#### Mission

Providing customers with valuable, environment friendly and clean power supply.

#### Service concept

Serve for customers, pursuit 100% satisfication of customers.

Smart Team

# Car Charger

## PCC-013C

### Single USB Car Charger

**Output Voltage, Current & Power :**

- USB Output Voltage : 5V
- Voltage Range : 4.75-5.25
- Output Current : 1A
- Output Power (W) : 1A 5W
- Single LED indicator upon power connection

## PCC2013

### Single USB car charger with ball-shape USB output, allowing USB moved up and down in angle of about 50 degree

**Output Voltage, Current & Power:**

- USB Output Voltage : 5V
- Voltage Range : 4.75-5.25
- Output Current : 1A
- Output Power (W) : 1A 5W
- Single LED indicator upon power connection, **BLUE** light on

Allowing USB omve up and down in an angle of ~50 degree

## PCC-13CX

### Single USB Car Charger with ring

**Output Voltage, Current & Power :**

- USB Output Voltage : 5V
- Voltage Range : 4.75-5.25
- Output Current : 1A
- Output Power (W) : 1A 5W
- Single LED indicator upon power connection

## PCC2014

*Just the size of a coca can*

### Auto Mobile Power - Multi-function Auto Emergency Start Power

**Special Features:**

- Multi-function : Trigger your automobile, mobile charger, warmer, illumination, warning
- Power type lithium polymer battery pack of discharge over 20C
- Battery, smaller and lighter compared to the equivalent specification of lead-acid batteries
- Just the size of a coa-cola can, really portable and can freely be fitted into the the holder for drinks inside your car
- Over-charge, over-discharge, short-circuit, over-heat protection

**Specification:**

- Input : Max 2A/12V
- Charging time for PCC2014 : 3.5-4 hours (under the car start condition)
- Output : Max total 5A / 5V (via 4 x USB outputs)
- Output time : 2 hours (Under max output current of standalone use)
- Over-charge, over-discharge, short-circuit, over-heat protection

**Performance Reference:**

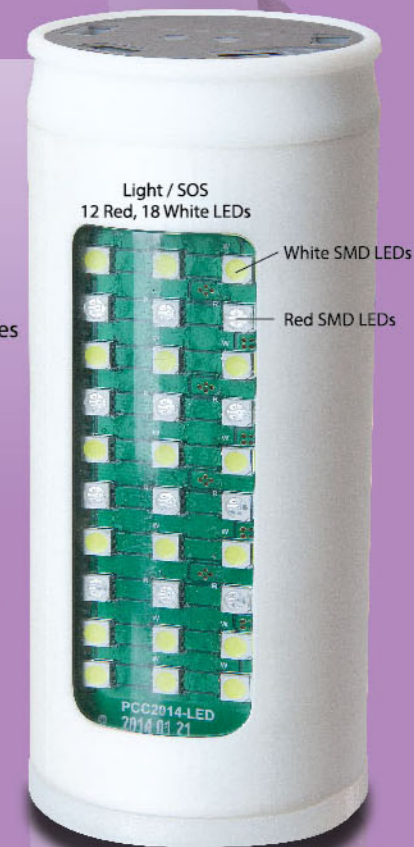

- Charge Mobile**
- Samsung Note 3 (3200 mAh) : Charge 3 times
  - iPhone 5S (1560 mAh) : Charge 6 times
  - Blackberry Z10 (1800 mAh) : Charge 5 times

**Illumination**

Continuous upto 15 hours

**Warmer**

Continuous upto 10 hours (under environmental temperature 25 degree Celsius)

Light / SOS  
12 Red, 18 White LEDs

White SMD LEDs  
Red SMD LEDs

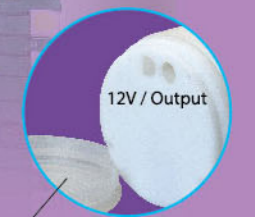

## PCC-020CX

### Dual USB Car Charger

**Output Voltage, Current & Power :**

- USB Output Voltage : 5V
- Voltage Range : 4.75-5.25
- Output Current : 1A & 2A
- Output Power (W) : 5W & 10W
- Single LED indicator upon power connection

Open protective silicon cover for 12V output
